Personal Statement

I can work well with PHP,HTML, CSS, JS languages, I can easily cut web designs with Photoshop. I am very interested in modern hardware / software. I already have a considerable luggage of knowledge and seek not only to continue improving in this area, but also to accumulate knowledge to improve my productivity. I am very eager to learn web technologies that are new to me such as Angular, React.js, Node.js,Redis and deepen my knowledge in PHP. I can quickly adapt to new circumstances as required. I am stubborn and unwavering to reach my goals. My biggest motivation is reactions to products that I've helped develop.
