## Personal Statement

As a person holding a Bachelor Degree in Informatics engineering I have a wide variety of knowledge in computer science, in-depth knowledge of several Programming Languages and Operating Systems. Interested in a cutting edge technology innovations.

Currently focusing on database development. Improving my knowledge and best practices on a daily basis. I am skilled Oracle certified professional, setting the standard for excellence.

I am a logical, analytical thinker with exceptional database skills having rich experience of 5+ years as Oracle PL/SQL developer.

Hands on constructing the triggers, tables, collections, functions, user defined data types, procedures, packages etc.

Additionally my competence include several Oracle developing tools like Forms builder, BI publisher, Discoverer and other user interface and reporting technologies based on XML and XSLT. Also I pay great attention to code performance and SQL tuning opportunities.

I work in accordance with the given specifications. Developing additional functionality for Oracle eBS system. My experience includes but is not limited to eBS modules like General Ledger, Receivables, Payables, Cash Management, Human Resources and Fixed Assets.

## Skill Stack

|                                |  |
|--------------------------------|--|
| <b>TOOLS</b>                   | <b>DATA BASE</b>                             |
| Jira 2-3 years                 | SQL +6 years                                 |
| Eclipse 0-1 year               | Oracle PL/SQL 5-6 years                      |
