Personal Statement

Qualifications highlights:

- Currently employed as a Quality Assurance Engineer.
- 5+ years of experience working as a QA Engineer, where majority of my projects were web and desktop applications testing. My day-to-day responsibilities included requirements analysis, creation of test cases, testing, reporting problems and validating fixes.
- Bachelor degree in Computer Science - Knowledge of CS fundamentals and SDLC.
- Master's degree in Accounting and 6 years of related experience - able to work under stress, responsible, diligent and thorough in details.
- Good team player, but also able to work independently. Good communication and presentation skills. I am able to adjust to different communication styles, written and verbal, to adjust to different audiences: both technical and non-technical.

More details are included in CV.
