Description:

Cnext is a data-minded business and technology consultancy firm, established in Belgium. Part of the company is located in Vilnius, Lithuania.

We provide very detailed advice to help companies improve contacts with customers and efficiency of service, including through business process acceleration and customer interaction optimisation.

Cnext wants happy customers, but also happy employees. We spend a large part of our lives at work, so we think it's important to have passion and a sense of fulfillment. Enthusiastic, motivated employees get more out of their jobs than just a payslip at the end of the month. Together we can achieve our ambitions. Cnext is a team, after all.

We're strong advocates of knowledge sharing, personal development and creative collaborations with customers and partners, as we believe this attitude increases the chances of success. We try to think out of the box and don't want to limit your tasks and responsibilities to a single, pigeon-holed job description.

We're looking for a Azure/BizTalk Developer

What you are going to do:

- Develop solutions using Microsoft Azure and/or Microsoft BizTalk;
- Integrate and monitor previously developed solutions.

We expect that you are:

- Someone who has previous experience with Microsoft Azure, Microsoft BizTalk or both;
- Quick learner;

- Able to work on your own;
- Passionate about the newest technologies;
- Fluent in English.

At Cnext:

- We don't care what time you come to the office, we care about effectiveness;
- We trust people, because we believe everyone wants to deliver the best they can;
- You want to work remotely or from any part of the world? It's fine!
- We don't really care about your appearance - you don't have to wear fancy clothes here. We matter about your knowledge.
- We hope that you will join our team buildings in Barcelona or somewhere else in the world :)
- We have a *Holacrasy* culture, which means it's not a pyramid, it's a circle and each member is valuable.
