Description:

For our customer we are looking for a Data source consultant

Job description:
Be a part of the team migrating from an old archive to the Nordic Archive. The team works agile so it will mean taking on various tasks, but with focus on re-migrating an old archive.

Included in the tasks are:
* Handling and acting on logs
* Automatatization of manual tasks
* Gather statistics
* Structure the work
* Documenting

We are looking for Linux system admin skills, SQL knowledge, scriping using Perl and shell scripts. A big bonus is having knowledge about Content Manager On Demand. If you don't have that we'll train you.

We want you to be dedicated, take own initiatives, have

a can-do attitude, and be well organised.

Language can be Swedish or English but the work will be done 100% on site in Gothenburg. It's not possible to work remote (other than single days if needed for personal reasons).

Required Skills

UNIX	PROGRAMMING
Linux 4-5 years	SQL 4-5 years

ROLE EXPERIENCE	LANGUAGE SKILLS
Developer 4-5 years	English Proficient Business Level (C1/C2)
