Description

Behalf of our client, we are looking for **Experience Strategist (product design, permanent position)**.

About the company:

By creating powerful, beautiful, and intuitive digital products, they don't blindly follow trends. They take their understanding of the latest technologies and build the best solutions for their enterprise clients. They are believers in collaboration across engineering, UX, and product teams. They combine their expertise to solve complex challenges. They are seeking an **Experience Strategist** to join their team and Drive results for all aspects of digital product design for their clients from advising on product vision through ongoing production design in addition to being a leader of the designer team fostering growth and well-being.

Responsibilities:

- Lead a team of designers fostering growth and wellbeing;
- Solution design- Determine design strategy for your engagement that enables you to produce designs for delivery, following best asset creation and management practices- Identify risks and complexities in proposed designs and areas of meaningful measurement supported by research efforts you will run with support

from design leadership;

- Production design- Collaborate with globally distributed team members during agile sprint ceremonies to determine immediate and future design scope and delivery- Ensure technical feasibility and quality of your designs for engineering hand off, and alleviate design blockers with engineers throughout your project's iterative sprint cadence- Facilitate design reviews with client stakeholders;
- Consulting- Collaborate with Product Managers on running requirements gathering workshops with clients- Advise clients on product design direction and work directly with delivery teams on technical options- Contribute to the Product Design practice through knowledge sharing and consistent demonstration of leading design practices.

Experience and Skills:

- Strong experience of leading other designers;
- 5 - 9 years of product design experience;
- Proven experience creating research, UX and UI artifacts;
- Working knowledge of Figma, Sketch, InVision and Adobe XD;
- Ability to translate ambiguous problems into a detailed, technically sound design solution;
- Requirements gathering experience and demonstrated problem-solving experience for complex business challenges;
- Strong communication skills: visual, written and verbal;
- Agile methodology familiarity;
- Ability to pick up technical and business concepts quickly;
- Excellent organizational, time management, and prioritization skills;
- Ability to lead by influence;
- Willingness to travel to client sites and other company office locations as deemed necessary.

Nice to have:

- Experience designing end-to-end custom software solutions;

- Experience using software product delivery tools (Jira, Azure DevOps);
- Working knowledge of Miro;
- Working knowledge of analytics tools such as FullStory or Mixpanel.

Benefits:

- Opportunity to be part of a global organization. Encouraging working atmosphere, engaging activities, and extra benefits (e.g. additional medical insurance (covers gym subscription), team events, outreach activities, and others);
- Hybrid work model with remote work opportunities.
- Open, modern, and ergonomic work environment when working from the office with the multicultural community.
- Opportunity to grow professionally and personally (e.g. Udemy) and continuously develop within the domain.
- The salary range for this position is from 4950 EUR to 8250 EUR gross before taxes.*

*Salary offer for the candidate is determined based on the predefined salary ranges for the position and depends on the level of competence and experience of the candidate.
