Aprašymas:

SDK.finance is seeking a mobile developer with a background in building high-performance user experiences for Android and iOS. In this role, you'll work with a small team to build a new mobile application using Flutter.

Required skills:

- 3+ years of experience in iOS;
- Experience in Flutter application development;
- Experience in posting and supporting apps in App Store;
- Experience in integration with Bluetooth devices (printers, POS-terminals, etc.)
- Knowledge of OOP design and patterns;
- Familiarity with SOLID principles and clean architecture;
- Familiarity with RESTful API;
- Ability to debug and troubleshoot in a collaborative environment;
- Experience with Git;
- Familiarity with Dependency Injection;
- Experience working in an Agile team.

It Will be a plus:

- Experience in posting and supporting apps in Google Play/App Store;
- Be familiar with Agile.

What you will do:

- Write clear, scalable, and testable code;
- Post application to the market;
- Perform integrations with payment devices;
- Learn, adapt, and be a good teammate.
