Description

New opportunity for Freelance IT System Analyst in Finance Tribe, Accounting Block.

About Danske Group IT:

It is a part of an organization, which delivers world-class digital financial solutions to customers. They understand that the current change is Technology-driven, and we prioritize IT as a key component for success in our journey to drive digital disruption in the bank. Their teams work with complex tech challenges and develop Danske Bank's global competitive edge on innovative digital solutions. Teams are driven by job content, share ownership of strategic services, own service strategy, and lead improvement. One more important feature is that senior leadership is present on-site.

Responsibilities:

• Ensure the accuracy and efficiency of the bank's data foundation that supports Group Accounts and the banks financial reporting

• Analyse, document and test business requirements at both high level and details

• Collaborate closely with end-users and ensure alignment on objective and key outcomes

• Map individual accounts to the balance sheet and P&L in a structured approach

• Maintain continuous communication with both business stakeholders and developers

Requirements:

• Strong understanding of accounting principles, and preferably data and system understanding within banking

• Demonstrated expertise in data collection and analysis, ensuring data quality, and engaging in data modelling.

• Proficiency in SQL Server, T-SQL, or PL/SQL. • Have a "can do" mindset and it motivates you to work in an agile environment.

• A keen interest or existing experience in analyzing current systems to develop technical specifications for new systems.

• Excellent communication and presentation skills. You can set clear direction and manage stakeholders

• Open-minded team player that motivates and engage the squad members and stakeholders. Facilitates good collaboration and open dialogue.

Additional great to have:

• Strong understanding of accounting principles within banking; Proficiency in SQL Server, T-SQL, or PL/SQL

Preferred start date/end date:

- Asap. For 6 months with further prolongation

Company offers:

• An inspiring environment in a large IT organization

• Work in an international team, which concentrates on innovative business-facing solutions

• An extensive training program to ensure that your skills are maintained and updated on an ongoing basis
