Description

New opportunity for Freelance Senior IT Platform Engineer for Engineering Tooling team.

About Danske Group IT:

It is a part of an organization, which delivers world-class digital financial solutions to customers. They understand that the current change is Technology-driven, and we prioritize IT as a key component for success in our journey to drive digital disruption in the bank. Their teams work with complex tech challenges and develop Danske Bank's global competitive edge on innovative digital solutions. Teams are driven by job content, share ownership of strategic services, own service strategy, and lead improvement. One more important feature is that senior leadership is present on-site.

Responsibilities:

An IT Platform Engineer ensures the availability, stability, and integrity of the company's Platform. Furthermore, the Engineer monitors, maintains and evolves platform and troubleshoot problems that may

arise and in addition to that, the Engineer maintains platform integrity and security.

Requirements:

Primary skills:

- Proven experience with CI/CD tools like Azure DevOps, GitHub Actions
- Practical familiarity with AWS public cloud resources and services
- DevOps (DevSecOps) practices and Frameworks

Secondary skills:

- Solid background in OS administration, spanning platforms such as Linux and Windows
- Coding and scripting in common languages: Golang, C#, Powershell, Bash
- Proficiency with container technologies like Docker and Kubernetes
- Proficiency in troubleshooting and resolving technical issues across test and production environments
- Proficiency in infrastructure management and automation tasks (provisioning, configuring, and maintaining servers and networking components with Chef and/or Ansible)

Years of experience: 5+

Preferred start date/end date:

- Asap. For 6 months with further prolongation

Company offers:

- An inspiring environment in a large IT organization
- Work in an international team, which concentrates on innovative business-facing solutions
- An extensive training program to ensure that your skills are maintained and updated on an ongoing basis
