Description

Behalf of our client, we are looking for Freelance Senior .NET developer with Payments Experience.

Project/Client: fintech

Location: Lithuania

Start date: ASAP

Duration: 12 months

Seniority: senior

Role Overview:

We are seeking an experienced .NET Developer to join a fintech engineering team. The position requires deep knowledge of banking standards (ISO 20022), real-time payment solutions, and strong .NET expertise. **Knowledge of UK payment regulations is highly preferred.**

Key Requirements:

- 6+ years of experience with **C# and .NET** (Core/6/7/8)
- Advanced knowledge of **ISO 20022** and **SEPA** payment formats
- Hands-on experience

with **SWIFT, FPS, BACS, CHAPS, TARGET2**

- **Familiarity with APIs for PayPal and Banking Circle**
- **Proficient with REST, SOAP, SFTP, XML/JSON**
- **Secure coding expertise, SQL Server, message queues, Docker**
- **Excellent communication skills in English**
- **Experience with UK payment regulations** is highly preferred
- Experience with **Open Banking** is a must

Nice to Have:

- Background in **core banking systems** or **digital wallets**
- **Experience with cut-off times, clearing, and settlement processes**

Responsibilities:

- Develop and maintain backend payment processing services using .NET Core (C#)
- Process ISO 20022 (pain.001, camt.053) and SWIFT MT/MX payments
- Integrate with various bank APIs and file-based communication channels
- Oversee the full lifecycle of payments—from initiation to reconciliation
- Ensure compliance, robust error handling, and auditing
- Collaborate with cross-functional teams to deliver secure, scalable platforms
- Maintain technical documentation and implement new payment integrations
- Participate in code reviews, testing, and CI/CD pipelines
