Description:

Genius Sports is looking for an experienced FrontEnd developer.

You will work with an international development team to deliver Football competition management system which is used by the biggest football organizations in the world. Your key responsibilities will include:

- Analyzing requirements raised by internal and external customers
- Producing high quality, tested and maintainable code, using the best technologies for the problem at hand
- Investigating and resolving of issues reported by internal and external customers
- Ensuring the team follows the development process and delivers software which adheres to the Front-end Definition of Done

Required Skills

- Exceptional core JavaScript
- Experience with Node.JS is a plus
- Experience with React framework
- Knowledge of software design patterns and

messaging patterns

- Knowledge of and experience using build systems - Webpack, Maven, Gulp, Grunt, Gradle
- Experience using a JavaScript Compiler or transpiler. Compilers with strong typing is preferred to transpilers
- Knowledge and experience with constructing and managing build pipelines
- Knowledge and experience with repository management and artifact management and versioning - Nexus, NPM, Maven
- Exceptional CSS
- Knowledge of and experience of a CSS pre-processor, for example Sass or Less. Knowledge how to write mixins and understanding of how the compilation process works.
- Experience in unit, integration and functional testing

Desirable Skills

- Experienced full stack developer
- Polyglot programming
- Experience with time based measurement and counting
- Experience in client side performance monitoring
