Aprašymas:

Do you want to join Danske Bank on journey to disrupt financing services? Danske Bank is committed to be at the forefront of digital development in our pursuit to create the bank of the future. To do this we need bright minds and highly motivated individuals with pioneer spirit and a courage to challenge the way we do things. Our client is looking for business analyst to take leading role in fundamentally reshaping Danske Bank Payments Core. You will become part of the IT team, where you will lead requirements domain for creating core payments platform, making it possible to run a highly profiled and all bank channels facing payments platform. You will be working closely together with the experienced IT team and stakeholders in order to understand and implement the best in class payment solutions and fulfil business needs by following payments disruption trends. This position is a unique opportunity to contribute to a non-traditional banking set-up characterized by start-up culture, high pace, agile development, flat hierarchy, and with an overarching customer-focused approach.

Intro About DGITL:

Danske Bank Group IT Lithuania (DGITL) is a part of an organization, which delivers world-class digital financial solutions to customers. DGITL is newly established IT

site operating from the end of 2014 but it is already the fastest growing IT organization in Lithuanian market. We have an understanding that the current change is Technology-driven, and we prioritize IT as a key component for success in our journey to drive digital disruption in the bank.

DGITL teams work with complex tech challenges and develop Danske Bank's global competitive edge on innovative digital solutions. Teams are driven by job content, share ownership of strategic services, own service strategy and lead improvement. One more important feature – senior leadership is present on site. Fast changing, high performing, innovative Core Payments IT area.

Responsibilities:

Your main tasks will be:

- Requirements analysis and communication with numerous stakeholders and internal suppliers;
- Take ownership of systems and act as product owner and backlog keeper
- Analyze, prepare, make a plan and carry out the tasks in the project related to business analysis
- Create high quality documentation of Software Products and relevant processes;
- Smoke testing features to ensure we deliver what was requested;
- Business analysis, requirement development, being the link between business and IT, test planning and execution, supplier management, organizational implementation and much more

Expected skill set:

- Proactivity and visible leadership
- Experience and a track record showing successful performance as a Business Analyst
- Great stakeholder management and interpersonal skills
- Experience in requirements gathering and testing IT solutions
- Able to gain new business and technical knowledge
- Analytical thinking and problem solving
- Ability to challenge the business in requirement development
- Holistic thinking, open minded and 'Can do' attitude
- Bachelor's or master degree in IT, business management, financing, economics, econometrics

- or relevant
- Excellent English

The following is a plus:

- Understanding of APIs, micro services architecture and relationships between those
- Work experience in the financial sector
- CMMI/ITIL skills
- Experience within payments domain
- Experience with working in global teams

Requirements:

- Key requirement: Experience in payments domain and or strong data analytical skills
- Good English written and oral skills are essential for this position
- Bachelor's degree or University graduate in IT, business management or relevant
- Experience of working in global teams (advantage)
- Certificates from official authorities (advantage)
- Great interpersonal skills and ability to work in a team

Company offers:

- Challenging tasks and hands on experience with new technologies
- Work in an international expert team, which concentrates on innovative business facing solutions
- Extensive learning opportunities to ensure that your skills are constantly improving
- Cross business career opportunities in the bank

Work location:

- On-Site: Vilnius, Goštauto 12A
