Mid/Senior Front-End Developer (Vue.js)

HITCONTRACT

Lietuva

Aprašymas:

Sender.net was started in 2012 in Lithuania and now serves over 100.000 customers from all over the world. We have tremendously expanded during the last couple of years and we continue to grow!

Join our team and let's create awesome software together!

What you will do

We constantly improve our award-winning software. Over the past year, we moved all our frontend codes to Vue2 and Vue3. You would work on existing (clean!) Vue projects as well as create new ones using Vue3.

What we expect from you

- At least 2+ years of experience in frontend development.
- Working experience with Vue.js.
- Good knowledge of DOM, JavaScript, and Vue.
- Knowledge of TypeScript, SASS.
- Perfectionism is a must.

What we offer

- Free lunch every day!
- Snacks, coffee, tea, and anything else you would like to order from Barbora.
- Team Building events, flexible hours.
- Ping pong and mini basketball tournaments.
- Friendly and supportive team.
