Description

The Remmers Group was founded by Bernhard Remmers in 1949 and has remained an independent family-owned company to the present day. The specialist for manufacturer of chemical construction products, wood paints, and lacquers, as well as industrial lacquers, has about 1,500 highly qualified specialists, more than 400 problem-solving product systems, and decades of expertise in the most important competence fields of the industry. We offer real added value when working with national and international partners. As far as safe systems, professional competence, and made-to-measure customer service goes, Remmers is the leading brand. Find your place with us as a Software developer.

Our benefits:

We can only successfully shape our future with our employees. We therefore attach great importance to a comprehensive induction, a work environment that is state-of-the-art, and an open-minded and innovative corporate culture.

Everyone makes an important contribution, and we appreciate that. That's why we want to give something back with our comprehensive employer benefits like flexible working-time models, capital-forming benefits, health programs, and training opportunities.

Our Goal:

We want to expand in SAP cloud development and to

become independent from service providers. Therefore, we are looking for motivated high potentials to build an expert team in our LTA service center to support the German project team.

Your tasks:

- Work in the team on the optimization, and expansion of the cloud systems;
- Support, and develop new features and functionalities;
- Release management;
- Tightly communicating and collaborating with colleagues from Germany.

We expect you:

- Have education with the focus in informatics (e.g., computer science or comparable qualification);
- Have strong knowledge in **Java**;
- Have **4+ years of experience in software development**;
- Are a reliable, team player having good communication and coordination skills;
- Have a good command of written and spoken English.

It would be beneficial if you:

- Have a good understanding of Cloud technologies;
- Have basic knowledge of Agile methodology;
- Have various experience in system integrations (SOAP, REST/ODATA, XML, JSON, etc.);
- Have experience with Database's (Oracle, MySQL);
- Have experience with Docker, CI/CD, and UT.

Our benefits:

- Health insurance;
- Flexible working hours;
- Opportunity to express your ideas and directly impact the company's growth;
- We can only successfully shape our future with our employees. We, therefore, use state-of-the-art technologies, foster open and innovative company culture;
- **Salary up to 6000 EUR gross.**
