Description

For our Client from the telecom sector, we are looking for a **Remote Scrum Master / QA Engineer**.

Location: Vilnius, Lithuania

Work Model: Remote in Lithuania ONLY

We are looking for a hands-on **QA Engineer combined with Scrum Master responsibilities** to join our online team.

The role includes:

- Performing both manual and automated testing (test case creation, execution, and follow-up).
- Understanding dependent systems and validating integrations end-to-end.
- Maintaining and monitoring test environments to ensure service availability.
- Coordinating with dependent teams to secure and validate test data.
- Supporting production stability by analyzing incidents, reproducing issues, and providing clear defect descriptions to developers.
- Driving agile ways of working, facilitating retrospectives, and ensuring Scrum processes are followed.

Required skills:

- Manual Testing.

- Scrum.
- Test Case.
- QA.
- Automation.

Languages

- English (Proficient).

Required Skills

TESTING

Testing 5-6 years

ROLE EXPERIENCE

Scrum Master 2-3 years
