Aprašymas:

Harbortouch Payments, LLC is a leading business technology company and pioneer of the POS-as-a-Service business model, having served over 300,000 merchants in 17 years in business and currently processing more than \$12B annually. The company offers a revolutionary free equipment program that delivers best-in-class POS systems with no up-front costs, including state-of-the-art hardware, premium software, custom programming, professional installation, onsite training and 24/7 support. We are focused on delivering unparalleled value to our clients and are driven by innovation, design, and technology.

SENIOR BACKEND ENGINEER (NODE.JS)

The Developers Marketplace (DM) also known as Conecto, is tailor made to enhance all four of our POS products, bringing them to levels of performance anyone never thought possible. **With DM, our clients can have every app or third party integration they'd ever need to do any task in their business** instantly at their fingertips, anywhere, anytime.

We're building this greenfield project with all those exciting technologies everyone keeps talking about: React, React Native, Node.js, TypeScript, Docker, and AWS. Our freedom, flexibility, and enterprise-level

commitment to quality makes it possible for us to deliver a truly great product—there's no time for mediocrity. Working with us, you'll have a chance to participate in all aspects of product development, from writing code to facilitating processes and helping come up with features.

As a Backend Engineer, you will be joining a small dedicated Scrum team which feels more like a family than anything else. We value openness, growth, responsibility, and teamwork, and we hope that you have the same attitude.

Requirements:

- At least 5 years of experience building commercial software;
- At least 2 year of Javascript and related tools like: NodeJS, ExpressJS, PostgreSQL.
- Extensive experience working with SQL databases;
- Deep understanding of designing or implementing RESTful APIs;
- Strong problem solving and communication skills;
- Demonstrated ability to work well in a fast-paced, multi-disciplinary team environment;
- Ability to learn, adapt and have an open mind;
- Bachelors degree in computer science or related would be a plus.

We offer:

- Growing innovative company with a friendly atmosphere;
- An opportunity to work in an international environment;
- Highly skilled team of colleagues and career opportunities;
- Library, trainings, online courses and conferences to improve your skills;
- Unifying events, team buildings and break room with modern consoles;
- The opportunity to work in the United States for a significant amount of time;
- Competitive salary and performance - based bonuses;
- Snacks and other treats in the office.
