Aprašymas:

Currently we are looking for a talented **Senior Full Stack .Net+Angular Developer** with knowledge of **C#, MVC, Angular** to join friendly team of our client's Exadel team!

About Exadel:

Since 1998 Exadel has been engineering its own software products and custom software for clients of all sizes. Headquartered in Walnut Creek, California, Exadel currently has 1000+ employees in development centers across America, Europe and Asia.

The Customer is the leading provider of school administration software, empowering strategic K-12 leaders with the right tools, data and insights to proactively manage human capital, business operations and special education. Educational organizations representing over 80,000 schools and millions of educators, administrators and support personnel have partnered with the Customer in their efforts to develop the next generation of learners. Frontline is dedicated to driving engagement across K-12 school systems and supporting the continuous improvement of employee effectiveness and efficiency with solutions for proactive recruiting and hiring, absence and time, professional growth, student information systems, special education and interventions, payroll, benefits and financial

management.

Project Stage:

Development

Requirements:

- Minimum 3+ years of experience in development of **.NET** applications
- Hands on experience with **Angular**
- Knowledge of **C#**
- Hands on experience in **MVC**
- Provide application support, which includes problem research, analysis, resolution, and on-call support
- Ability to communicate and collaborate cross-functionally, and work well in a team-oriented environment
- Good verbal and written communication skills

Nice to have:

- Bachelor or Master's degree in computer science, computer engineering, or a related field

English level:

- Intermediate+

Responsibilities:

- Produce code using .NET and Angular
- Writes unit tests and code that adheres to coding standards
- Provide technical support
- Work both independently and in close collaboration with others in the team. Provide effective communication with geographically distributed team members
- Communicate with the Customer on a regular basis
- Make recommendations for the improvement of the platform and development process to increase productivity
- Optimization of the application for maximum speed and scalability
- Implementation of security and data protection
- Identify, monitor and resolve project related issues

Advantages of working with Exadel:

- Attractive salary — we reward your commitment to our company
- Personal development — we understand that life-long learning is important and support everything that encourages a personal willingness to learn
- Language classes with a native speaker
- Flexible work schedule — a good work-life balance is the most important prerequisite for being creative and productive
- Friendly work environment
- Interesting job in an innovative company with the latest technologies
- Collaboration with a team full of interesting people
