Description:

Company

Emotion is a digital agency with over 13 years of experience with a strong focus on e-commerce . Physically located in Klaipėda and Vilnius company provide services to some of the largest retailers in Scandinavia.

Role:

Exploring the constantly evolving open-source system and extending it to the needs of enterprise-level customers. Main focus point - Akeneo PIM integrations with other systems in order to exchange data in the best possible way. Usually, integrations are done via REST API calls, therefore, knowing good practices of data exchange via API will help you to enjoy the process more. The most often data formats we are dealing with: JSON, CSV, XML. Symfony 3.4 is the core of Akeneo PIM, get ready to love it too.
