Description

New opportunity for freelance .NET back-end developer with experience in AWS for People Tribe at Danske Bank,

About Danske Group IT

It is a part of an organization, which delivers world-class digital financial solutions to customers. They have an understanding that the current change is Technology-driven, and we prioritize IT as a key component for success in our journey to drive digital disruption in the bank. Their teams work with complex tech challenges and develop Danske Bank's global competitive edge on innovative digital solutions. Teams are driven by job content, share ownership of strategic services, own service strategy, and lead improvement. One more important feature - senior leadership is present on-site.

Responsibilities:

- Design, develop, and maintain end-to-end solutions in the HR domain
- Provide technical assistance to drive the HR domain's digitalization journey
- Develop high-quality microservices for a cloud-based system

- Work with other engineers on improving our development, testing, and deployment practices, solution quality, maintainability and automation

Requirements:

- Technical skills: C# .NET, .NET Framework , .NET Core, SQL Server, Entity Framework, Microservices, REST APIs, experience in cloud native development
- Hands-on experience building web applications on AWS cloud focusing on backend
- Good foundational knowledge in OOPs, SOLID principles, and class design patterns
- Thoroughness with unit testing and code coverage
- Familiarity with and curiosity about the whole web stack, including database and system design and web server optimization techniques
- Strong sense of ownership of the system and end-to-end support
- Knowledge on how to create solutions that follow industry standards regarding usability, performance, reliability, and scalability
- Experience with and understanding of DevOps principles and practices (e.g., CI/CD)
- Advanced English language skills

Years of experience: 5+ years

Preferred start date/end date: ASAP - 1 year contract

Company offers:

- An inspiring environment in a large IT organization
- Work in an international team, which concentrates on innovative business-facing solutions
- An extensive training program to ensure that your skills are maintained and updated on an ongoing basis
