Description

We are a part of an organization that delivers world-class digital financial solutions to customers. We have an understanding that the current change is Technology-driven, and we prioritize IT as a key component for success in our journey to drive digital disruption in the bank. Our teams work with complex tech challenges and develop Danske Bank's global competitive edge on innovative digital solutions. Teams are driven by job content, share ownership of strategic services, own service strategy, and lead improvement.

Responsibilities:

The consultant will work in the Observability team and will:

- Develop and maintain internal tools and applications using Angular and TypeScript.
- Collaborate with architects and business stakeholders to understand their requirements and translate them into effective front-end solutions.

Requirements:

- 4-5 years of software engineering experience with Angular and TypeScript.
- Proficiency in NgRx (mandatory) and RxJs (mandatory).
- Familiarity with Jest for unit testing.
- Experience with NX for workspace management.
- Proficiency in Angular Material for UI

development.

- Understanding of AWS and OpenShift (nice to have).
- Knowledge of Tanstack is nice to know.

We Offer:

- An inspiring environment in a large IT organization.
- Work in an international team that concentrates on innovative business-facing solutions.

Work location:

On-Site (Vilnius, Lithuania) or Remote (EU).

Preferred start date/end date:

ASAP for 6 6-month assignment + option for prolongation for up to 6 months.
