Description

We create powerful, beautiful, and intuitive digital products. We don't blindly follow trends. We take our understanding of the latest technologies and build the best solutions for our enterprise clients. We're big believers in collaboration across engineering and product teams. We combine our individual expertise to solve complex challenges.

We seek team members who care about results and are not afraid of taking ownership.

Main responsibilities:

- Design, develop, and maintain high-quality Java spring boot applications as per client's requirements;
- Collaborate with teams in other departments to identify and prioritize requirements;
- Participate in the architectural design and implementation of cloud-native applications deployed in Kubernetes environments;
- Develop best practices for the company and participate in code reviews with the team and other stakeholders;
- Conduct technical analysis to arrive at solutions and create technological artifacts in response to production issues;
- Implement automated testing and CI/CD pipelines;
- Keep up with emerging trends and technologies in cloud computing, microservices, and container

orchestration.

Requirements:

- 3-5 years of demonstrable experience in secure coding, testing, and deployment in Java (Version 8 and above);
- Strong knowledge and technical skills in Core Java, Spring Boot, Microservices, Spring framework, and SOAP/RESTful services;
- Working knowledge of database technologies (MS SQL, DB2, Oracle);
- Experience in version control tools (Github, Bitbucket);
- Experience in building tools (Maven, Gradle);
- Experience with DevOps, CI/CD practices and tools (Github actions, Jenkins pipeline, and Docker);
- Familiarity with cloud technologies (AWS, Azure, or Google Cloud);
- Familiarity with agile software development methodologies;
- Experience in front-end technologies and/or Kubernetes is a plus;
- Experience in Life and Annuities Insurance is a plus;
- Professional proficiency in English is a must.

Benefits:

- Opportunity to be part of a global organization
- Encouraging working atmosphere, engaging activities, and extra benefits (e.g. additional medical insurance (covers gym subscription), team events, outreach activities, and others)
- Hybrid work model with remote work opportunities
- Open, modern, and ergonomic work environment when working from the office with the multicultural community
- Opportunity to grow professionally and personally (e.g. Udemy) and continuously develop within the domain
- The salary range for this position is from 3240 EUR to 3810 EUR gross before taxes. The salary offer for the candidate is determined based on the predefined salary ranges for the position and depends on the candidate's level of competence and experience.
