## Description:

For our customer, we are looking for a Technical SAP BPC consultant

Our customer is launching a project to revise the current customer management setup in order to eliminate duplicates of existing customer numbers in the SAP system and transform back to a more SAP best practice solution.

As part of this project our customer requires a technical SAP BPC consultant to perform updates to the current BPC solution to ensure correct financial planning with the new customer management setup.

### Tasks and Competencies required

#### Tasks:

- Detailed design specification according to overall architectural guidelines
- Perform changes within customers SAP BPC environment
- Add new hierarchy level to BPC dimension. Eventually automate this in a ABAP program in BI server
- Adjust BPC data flows (modifying existing BI transformations)
- Adjust BPC data loads (modifying existing BPC

standard ETL's)

- Transformation of historical data to the new setup
- Test solution according to the changed functionality
- Document changed functionality

Management Competencies and Soft Skills:

Ability to quickly get familiar with current BPC solution and overall architecture

Ability to work independently and take detailed design decisions according to overall architectural guidelines

Technical Competencies:

- SAP BPC expertise
- SAP BW knowledge
- ABAP programming

## Required Skills

### SAP

SAP ABAP 4-5 years

SAP BW 4-5 years

SAP in general 4-5 years

SAP BPC 4-5 years

### LANGUAGE SKILLS

**English** Proficient Business Level (C1/C2)
