Personal Statement

Domas has seven years of experience in implementing EPM (Enterprise Performance Management) solutions in various sectors (Manufacturing, Financial Services, Transportation, etc.) He has implemented and led workstreams in different types of projects: Profitability, Cost Management, Budgeting, Planning and Forecasting and other.

Domas is very technically savvy due his type of work as a system architect, which requires complex multidimensional thinking (including database integration, project management, financial and management accounting skills). At the same time, he is proactive and effective in his communication with clients and projects' stakeholders. He has gained strong multicultural international experience working in Middle East, Turkey, Eastern Europe, Nordics and UK.

In addition, he possesses his financial experience and academic knowledge from different ongoing qualifications (1st level of CFA (US), CIMA (UK)), and Master's degree in Economics in leading university in Vilnius, Lithuania. As well as from a number of different trainings (Lean, Operational Excellence, Priority Based Budgeting, etc.)

Currently Domas works as a Principle Consultant for Middle East company. Previously he worked as a Senior Associate for PwC UK in London (3y 6m), as a Consultant for Vantage Performance Solutions (2y) and as a Financial Analyst/Controller for different companies in Retail and Banking sectors. His technology expertise

is in SAP PCM, Anaplan (Solution Architect), SAP BPC and Jedox.
