Personal Statement

I am experienced Packet Core/IP network engineer with strong working knowledge of mobile and IP networks technology and services. My expert area is Mobile Packet Core (PS/EPC/VoLTE).

I have 25+ years of solid experience in telecommunications. During my career, I had roles in both engineering, management and business areas.

I analyze network and services E2E, from helicopter view to node and parameter level and identify detect what is required for a high performing and cost effective network.

Experienced in packet core and IP network management, incident and crisis management, planning and implementation of network changes, capacity utilization follow-up and network KPI development especially when out-of-the-box counters include "noise" and false positive events.

Experienced in automation of network management tasks as well as events and alarms processing.

My mottos are "right the first time" and "customer first"
