Personal Statement

Very responsible and precise business analyst, with experience in requirements gathering, testing, coordination of testing, participation in planning implementation, support activities.

I worked in more than 6 projects. One of the projects was very international and long term (more than 6 years), with more than 300 hundred participats, from more than 10 countries.

Also, I planned, coordinated and executed more than 4 projects form IT side myseft. These included: requirements managment, risk managment, testing plan creation and coordination, implementation plan preparation and control, support activities afterwards.

I have good tasks planning, coordinating, task management skills, excellent comunnication skills.
