Personal Statement

I am forward-looking person, constantly learning something new about computer science. I am getting deep into uprising technologies – finished several online courses for Deep Learning A-Z, How to build an AI, Machine learning, Pattern and visual recognition. Actively participating in AI and drone technology research projects initiated by Lithuanian military. Despite my passion to flying robots, I am trying to be versatile and openhearted person. I believe that the amount you give will always determine the amount you get back.
