Workload

100%

Personal Statement

Started my career as a manual software tester, then continued to work on IT support and earned some knowledge about networking while working as junior network administrator. As I became more interested in web development I transitioned to another company where I worked as a full-stack developer for a shorter amount of time. Now I focus mainly on front-end development while working with technologies like TypeScript, React, Redux, Immutable.js and others.

Skill Stack

WEB	ADMIN & NETWORK
CSS3 2-3 years	Cisco 1-2 years
JAVASCRIPT	METHODS
JQuery 2-3 years	Agile 1-2 years
Node.JS 2-3 years
