Personal Statement

Different systems and processes, a lot of data... It doesn't matter which platform or tools... Systems integration always will be my biggest inspiration. I am looking for a new challenge and an opportunity to use my organisational, technical skills and experience to grow my career. Now I am interested in the latest SAP innovations (SAP PO, PI, BPM, Hana). In the past spent a lot of time with Microsoft products (SQL Server, ETL, BI, .NET platform, C#, Biztalk, etc...).
New offers are welcome.
