Personal Statement

I have 13 years of graphic design experience and for past 4 years, I also work in the field of UX. My current full-time job is "User Interface Specialist", but in my free time, I work as UX consultant for various companies in IT and FinTech. My analytical mindset and creative thinking allows me to create beautiful, but most importantly, intuitive and easy to use products. My main goal is to understand the users, empathize, and create solutions that work best for them and brings the most ROI for my clients.
