Personal Statement

I'm reasonably lazy, so I'm persistent in finding simplest
solution. I trained myself to successfully convert coffee
to PHP, JavaScript/TypeScript or some other
programming code, but I'm ready to lay my hands on
something new and unseen. I believe that there is no
limit for perfection, but it doesn't mean one shouldn't
try to master it. My moto is "It is not shame to not know
something, it is shame to remain unaware". I would be
interested in discovering the undiscovered and I'm
prepared to adapt inovations.
