Aprašymas:

A turning point of modern-day financial management has come with digital simplification. At Bankera, we aim to deliver solutions that facilitate our customers' everyday finances. Working as an **iOS Developer at Bankera**, you will help us create a refreshing user experience and build trust between the company and its clients by implementing financial applications.

You should find it interesting to

- Develop, build, maintain, and improve mobile application
- Ensure quality and development of the application
- Evaluate emerging technologies to improve an existing application
- Test devices and emulators
- Deliver a clean, high quality, well-documented code
- Collaborate with and mentor other developers

You will work with

- Swift
- Objective C
- Xcode
- CocoaPods

We would love you to have

- Understanding of Apple design principles and interface guidelines
- Previous experience as an iOS developer
- Attention to detail
- Being proactive
- Empathy and ability to work in a team
- Responsible, organized, self-motivated personality

Salary

Salary for this position ranges from 900 to 3300 EUR for junior and mid-level specialists. For senior level specialists, salary ranges from 3300 to 8200 EUR (before taxes). The final offer depends on your experience, competence, and motivation.
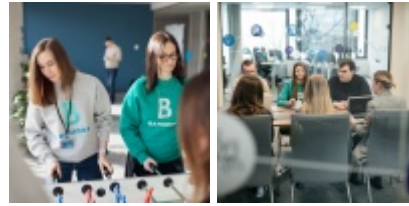

Perks of working at Bankera

- Flexible working hours
- Competitive salary
- Exciting and challenging FinTech based projects
- Modern offices with a solid IT infrastructure
- Professional and personal development
- Office perks and company events
- International and talented team
- Progressive vacation policy
- Employee referral program

Should you feel that your skills and experience match the above we would be delighted to receive your application. Drop us your cv to careers@bankera.com. Confidentiality is guaranteed.

By applying for this job position you confirm you have read and understood the Candidate Policy Notice (https://careers.bankera.com/en/candidate-policy/).
