Aprašymas:

Flinke Folk is a company located in Stavanger - Norway, Klaipeda - Lithuania and New Orleans - USA. We develop customized software for supporting the various aspects of the Oil and Gas industry operations. Several of our applications are now used by the 5th largest company in the World - Royal Dutch Shell - globally.

We are looking for a mid-level front-end developer, who would like to join us bringing his passion for coding and good, clean code.

You will be responsible for creating and implementing UI and UX solutions that will produce visual elements of the web application. You will be given challenges and freedom to solve them in cooperation with the team.

Our goal is to deliver beautiful, perfectly functional solutions that meet - and exceed - our clients' needs.
