Description

We are exploring the network for **Information Security Specialists** to support ongoing and future NIS2 implementation projects. This role focuses on compliance expertise and hands-on support for regulatory and audit readiness across multiple frameworks.

Key Requirements:

- Proven experience with **NIS2, DORA, and ISO/IEC 27001** compliance frameworks.
- Demonstrated track record in practical implementation and audit preparation.
- Ability to collaborate across teams using **Jira, Confluence, and SharePoint**.
- Fluent Lithuanian is highly preferred.

Nice to Have:

- Familiarity with **Microsoft 365 security tools** (Defender, Intune, Sentinel).
- Experience with cloud environments (**AWS, Azure, Google Cloud**).

Location:

- Hybrid/Remote (Lithuania preferred).
