2024-07-31 (*4 weeks
from now*)

Description

We are seeking 2 x Mid-Senior Progress OpenEdge Developers to join our team for two key projects.

The first project consists of a standalone new application, which needs to be built in Progress OpenEdge and Angular. There will be an architect and 3 business developers in the team. It is related to a leasing area.

Another project is similar - the system involves full-stack development.

Angular or any Front-End knowledge is a huge bonus, but the most important experience is Progress OpenEdge for both of these projects.

Must-have Requirements:

- Demonstrated expertise as a Progress OpenEdge Developer;
- Experienced with Openshift and SonarQube;
- Capable of independent work and efficient task management in a remote environment;
- Effective communication skills in English;

Preferred Qualifications:

- Experience in the banking or financial services sector;
- Proficient in front-end development with Angular;

- Proficient in Java and Spring Boot for backend development.
