## Aprašymas:

Since 1998 Exadel has been engineering its own software products and custom software for clients of all sizes. Headquartered in Walnut Creek, California, Exadel currently has 1000+ employees in development centers across America, Europe, and Asia.

We are looking for a motivated **Middle JavaScript Developer (Full Stack)** to join our friendly team!

### About the Customer:

Don't miss your chance to work with the world's largest human resources consulting firm, headquartered in New York City. The company has more than 20,500 employees, is based in more than 40 countries, and operates internationally in more than 130 countries. Its services are used by 97% of Fortune 500 companies.

### About the Project:

This has become the flagship digital product for our client! In 2021, it will expand to handle all career compensation surveys. The team will also add hooks to and from machine learning models. The workflow will expand to handle additional use cases from other lines of business at the customer's company.

### Project Stage:

Development

### Project Team:

5 Developers, 2 Test Engineers, 1 BA

**Requirements:**

- 2+ years of experience in software development
- Strong **JavaScript** experience
- Hands-on experience with **Node.js**
- Knowledge of **Angular 2+**
- Strong engineering process and hygiene skills (e.g. source control, coding standards, code reviews)
- Ability to work in an agile team (SCRUM)
- High level of comfort working with a remote team

**English level:**

- Excellent written and spoken English

**Responsibilities:**

- Develop front and back end of the working project
- Write new features, fix bugs, assist in refactoring, unit tests, and documentation
- Communicate with the customer through Confluence, Atlassian, and voice meetings
- Constantly work on improving your skills and qualifications

**Advantages of Working with Exadel:**

- There are plenty of opportunities for advancement at Exadel
- You can build your expertise with Exadel Expert Groups, which provide support for existing and potential projects
- You can join any community or create your own to communicate with like-minded colleagues
- You can participate in continuing education as a mentor or speaker
- You can take part in internal and external meetups as a speaker or listener
- You can learn English with the support of native speakers
- You can take part in cultural, sport, charity, and entertainment events

**More benefits:**

- Flexible work schedule with a good work/life balance;
- Friendly work environment;
- Medical insurance and compensated sick days (up to 30 workdays/year);
- 1 paid social vacation day;
- Interesting projects and a possibility to work with

innovative technologies;

- Collaboration with a team full of interesting people;
- Relaxed atmosphere and casual dress code;
- Regular social events with the team;
- Culture of knowledge sharing and a great place to learn from and/or mentor colleagues;
- Training focus with self-learning benefits;
- Delivering high-quality software with processes based on best practices;
- Medical insurance.
