Description

We are seeking a highly skilled **Technical Lead** to join our team. The ideal candidate will have extensive experience in MuleSoft Integration and a strong background in Procure to Pay-Account Payable and Order to Cash Order Management domains. This hybrid role requires a proactive individual who can drive technical solutions and ensure seamless integration processes.

Responsibilities:

- Lead the design and implementation of MuleSoft Integration solutions to meet business requirements;
- Oversee the development and deployment of integration workflows and APIs using MuleSoft;
- Provide technical guidance and mentorship to the development team to ensure best practices are followed;
- Collaborate with cross-functional teams to gather and analyze requirements for Procure to Pay-Account Payable and Order to Cash Order Management processes;
- Ensure the integration solutions are scalable secure and maintainable;
- Conduct code reviews and provide constructive feedback to improve code quality;
- Troubleshoot and resolve any issues related to MuleSoft integrations in a timely manner;
- Develop and maintain documentation for integration processes and technical

specifications;

- Monitor and optimize the performance of integration solutions to ensure high availability and reliability;
- Stay updated with the latest trends and advancements in MuleSoft and integration technologies;
- Coordinate with stakeholders to ensure alignment of integration solutions with business objectives;
- Provide training and support to end-users and other team members on integration solutions;
- Contribute to the continuous improvement of integration processes and methodologies.

Qualifications:

- Possess a Bachelors degree in Computer Science Information Technology or a related field;
- Have at least 10 years of experience in software development with a focus on integration solutions;
- Demonstrate extensive experience with MuleSoft Integration and API development;
- Show strong knowledge of Procure to Pay-Account Payable and Order to Cash Order Management domains;
- Exhibit excellent problem-solving skills and the ability to troubleshoot complex integration issues;
- Have strong communication skills to effectively collaborate with cross-functional teams;
- Be proficient in developing and maintaining technical documentation;
- Demonstrate the ability to lead and mentor a team of developers;
- Show a proactive approach to staying updated with the latest industry trends and technologies;
- Have experience with hybrid work models and the ability to manage tasks both remotely and on-site;
- Be detail-oriented with a focus on delivering high-quality integration solutions;
- Exhibit strong organizational skills to manage multiple projects and priorities effectively;
- Show a commitment to continuous learning and professional development.

Certifications Required:

- MuleSoft Certified Developer MuleSoft Certified Integration Architect
