### Description

We are seeking a skilled **Senior Java Software Engineer** to join our team.

#### Job Summary:

- A Senior Engineer is responsible for the design, development, and maintenance of software applications using Java;
- This includes working also with front-end web development technologies such as React;
- The Full Stack Engineer will be involved in all aspects of the software development life cycle, including requirement gathering, design, development, testing, and deployment;
- Strong technical skills and experience with both back-end and front-end development are essential for this role;
- Ability to collaborate with other team members, including other engineers, product managers, and stakeholders to deliver high-quality software on time.

#### Main Responsibilities:

- Participating in agile ceremonies such as sprint planning, stand-up meetings, and retrospectives;
- Collaborating with other team members to gather and understand requirements for new features and enhancements;
- Developing and maintaining front-end web components using React, JavaScript, HTML, and CSS;

- Designing and developing software using Java;
- Building and consuming RESTful web services and APIs;
- Writing unit tests and integration tests to ensure code quality and maintainability;
- Participating in code reviews and providing feedback to other team members;
- Troubleshooting and debugging issues;
- Continuously improving the software development process and practices;
- Communicating with stakeholders and other team members to ensure project goals are met;
- Keeping up-to-date with the latest technologies and industry trends to improve the software and the development process.

**Essential Skills:**

- Java;
- React.

**Nice to Have Skills**

- Azure.

**Benefits:**

- Opportunity to be part of a global organization;
- Encouraging working atmosphere, engaging activities, and extra benefits (e.g. additional medical insurance (covers gym subscription), team events, outreach activities, and others);
- Hybrid work model with remote work opportunities;
- Open, modern, and ergonomic work environment when working from the office with the multicultural community;
- Opportunity to grow professionally and personally (e.g. Udemy) and continuously develop within the domain;
- The salary range for this position is from 4125 EUR to 6875 EUR gross before taxes.\*\*Salary offer for the candidate is determined based on the predefined salary ranges for the position and depends on the level of competence and experience of the candidate.

## Required Skills

**PROGRAMMING**

Java 5-6 years

**JAVASCRIPT**

React.js 1-2 years
