Description

On behalf of our client, we are looking for a skilled Senior Software Engineer to join their team and contribute to the design, development, and maintenance of innovative software applications.

As a **Senior Software Engineer**, you will work with cutting-edge technologies such as **React**, **C#**, **ASP.NET Core**, and **Hot Chocolate**, developing both front-end and back-end solutions. Your expertise will be essential in delivering high-quality software applications that meet user needs, while collaborating with team members throughout the entire software development lifecycle.

Responsibilities:

- Participate in agile ceremonies such as sprint planning, stand-ups, and retrospectives.
- Collaborate with team members to gather and understand requirements for new features and enhancements.
- Develop and maintain front-end web components using **React**, **JavaScript**, **HTML**, and **CSS**.
- Design and develop software using the **.NET** framework, including **C#**, **ASP.NET Core**, and **Hot Chocolate**.
- Build and consume **RESTful** web services and

APIs.

- Write unit tests and integration tests to ensure code quality and maintainability.
- Participate in code reviews and provide feedback to other team members.
- Troubleshoot and debug issues to ensure smooth operation of applications.
- Continuously improve the software development process and best practices.
- Communicate effectively with stakeholders and team members to ensure project goals are met.
- Stay up-to-date with the latest technologies and trends to enhance the software and development processes.

Qualifications:

- Strong experience in **ReactJS, .NET Framework, C#, ASP.NET Core, GraphQL, HTML, CSS, and JavaScript**.
- Nice to have: Experience with **Azure, Hasura, and Hot Chocolate .NET API**.
- Proficiency in **Lithuanian** and **English** (both written and spoken).
- Solid understanding of software development principles and methodologies.
- Ability to work effectively in a **hybrid work model**.
- Strong problem-solving skills and attention to detail.
- Excellent communication and collaboration abilities.
- Proven track record of delivering high-quality software solutions within deadlines.

Company Offers:

- Opportunity to be part of a global organization.
- Encouraging working atmosphere, engaging activities, and extra benefits such as additional medical insurance (including gym subscription), team events, outreach activities, and more.
- Hybrid work model with remote work opportunities.
- Open, modern, and ergonomic work environment when working from the office, with a multicultural community.
- Opportunity for professional and personal growth (e.g., access to **Udemy** courses) and continuous development within the domain.
- The salary range for this position is from **4125 EUR to 6875 EUR** gross before taxes.
