Description

Senior NAV Developer Full Job Description

We are looking for experienced Dynamics 365 Business Central / Dynamics NAV (Navision) Senior Software Developer. Full Time, Part Time & Subcontract positions are available. Work Remotely or out of our Accra Digital Centre offices.

Candidates should have extensive experience with implementation and customer support of Accounting, Distribution and Manufacturing software for Ghanaian based companies and international clients. They must be resourceful, knowledgeable, dedicated, energetic and professional. They should be able to deliver outstanding results, exceed expectations, meet deadlines, and ensure that our customers are extremely satisfied.

We are a leading provider of turn-key business management software solutions and related services (AO Holdings Ltd). With very experienced, knowledgeable, dedicated, and professional consultants and software developers, and with a proven implementation methodology, we help our customers to increase productivity, efficiency, market share, customer satisfaction, sales, and profits.

Details about our offerings can be found here:

<https://www.aoholdings.net>. We provide implementation and customer support services to small and midsize companies, Government Agencies and International companies. As a Microsoft Authorized Business Partner, we implement state-of-the-art business software, and are committed to Quality, Service and Customer Satisfaction.

Key Responsibilities

- Participate in ERP Software implementation projects for new and current customers.
- You will oversee customizing the software as per each customer's requirements. Responsibilities include writing specifications, programming, testing, consulting, analysis, data conversion, processing upgrades and providing customer support.
- Analyze and document business requirements and conduct gap analysis studies.
- Work in a dynamic, challenging, and fast paced environment.
- Work well as part of the implementation team dedicated to delivering quality results on time and within budget and exceed customers' expectations.

Requirements

- Strong presentation, communication, administration, and interpersonal skills.
- Minimum of three years of Microsoft Dynamics Software Development Experience.
- Strong understanding of ERP software and related terminology, functionality, best practices, processes, and business rules. Including areas such as Inventory & Warehouse Management, Costing, Financials, Manufacturing, Service, Purchasing, Sales, CRM, and Fixed Assets.
- Must be dedicated, ethical, organized, professional, and a true team player.
- Applicants must possess a Bachelor's or Master's degree.
- Excellent problem solving and analytical skills.
- Experience with SSRS, SQL Server, Office 365, SharePoint, EDI, Azure, and Power BI is a big plus.
- Accounting background with a solid grasp of general accounting principles is required.
- Candidate needs to be a self-starter and should be able to work independently for most of their tasks with little help/guidance from their manager.

- Occasional travel may be required.
