Working (Hit me with offer) (Updated: 6 months ago)

Workload

100%

Personal Statement

For the past 10 years, I was involved in developing embedded systems based on 32 bit ARM microcontrollers mainly in telematics field. I have a good knowledge and experience in GSM/GPRS modems and GPS modules. My main experience is C programming, but I know assembly as well. Most of the time I was developing firmware solutions based on RTOS. I can read and understand hardware schematics.
