## Personal Statement

I have been working as IT project manager for more than five years. During this time, I have got many experience in IT infrastructure, in software development as well as software implementation projects. I understand business needs and processes well. I have technical, organizational, time planning, management, analytical, problem solving skills and have big experience in team leadership (have been a manager of analytics and programmers team).
I also have big experience in programming (vb .net, C# .net, ASP .net, Java) and in MS SQL.
