Personal Statement

I am a creative and ideas person from childhood. I started developing 13 years ago and it became my hobby. While developing I can realize my ideas and myself. I have 10 years of experience in software development using Microsoft's technologies (C#, WIN, WPF,). 2 years' experience using working at the beckend using Java (Spring) technologies on cloud solutions. I can quickly analyze issues, determine solutions and achieve expected results. Strong communication and problem-solving skills helped me to achieve good tech-lead work results. I can join a team in one purpose and collective job.
