### Aprašymas

EUROAPOTHECA is an international group of Northern European companies that operate retail pharmacy chains and wholesale pharmaceutical companies in Lithuania, Sweden, Latvia and Estonia, as well as online pharmacies in Lithuania, Latvia and Estonia. EUROAPOTHECA group was established in 1998.

EUROAPOTHECA currently owns 480 pharmacies and 119 franchised pharmacies in four countries and employs more than 3900 employees.

With a leading position in Lithuania and a strong presence in other markets, EUROAPOTHECA promotes unique people focused work and business culture where professionalism, teamwork and simplicity are valued.

#### Your responsibilities will include:

- Administration of business system application databases and services
- Work closely with developer teams on architecture, development framework and quality assurance
- Plan and implement system updates, security, replications, high availability, backup and restore
- Maintenance of technical documentation
- Provide support to business application development team on topics related to DB
- Automation of daily maintenance work
- Monitoring system performance and availability

- Ensuring that SLAs are followed

**We are looking for a colleague who has:**

- Experience with Windows Server
- Good knowledge of MS SQL administration
- Experience with MS SQL HA technologies (Always On, clustering, mirroring)
- Basic knowledge of ITIL standard
- Good knowledge of English and Lithuanian languages

**It would be an advantage if you have experience with:**

- MS Sharepoint
- MySQL, MariaDB
- MS Dynamics NAV applications
- LS Retail products
- Windows IIS knowledge
- Atlassian Products (Bitbucket, Bamboo, Confluence, Jira)

**We offer:**

- People focused work and business culture where professionalism, teamwork and simplicity are valued
- Excellent working conditions (flexible working time, hybrid work model)
- Attractive benefit package (private health insurance, travel insurance, bonus based on performance, 5 extra vacation days, team events and many more)
- Opportunity to grow professionally and personally (individual training budget)
- Career opportunities within the Company and the Group
