Description

New opportunity for Freelance Senior IT Software Engineer (Cloud Specialist).

About Danske Group IT:

It is a part of an organization, which delivers world-class digital financial solutions to customers. They understand that the current change is Technology-driven, and we prioritize IT as a key component for success in our journey to drive digital disruption in the bank. Their teams work with complex tech challenges and develop Danske Bank's global competitive edge on innovative digital solutions. Teams are driven by job content, share ownership of strategic services, own service strategy, and lead improvement. One more important feature is that senior leadership is present on-site.

Responsibilities:

• Join a mature squad of highly skilled individuals united by a common goal.

• Stay at the forefront of technological innovation, ensuring top-notch efficiency and software quality.

• Contribute to resolving incidents and bugs,

enhancing our platform's stability and performance.

• Thrive in a self-organizing Scrum team, embodying an agile mindset.

• Understand the value of comprehensive documentation and contribute to it when necessary.

• Collaborate closely with architects, fellow software engineers, and business analysts.

• Contribute to the development of a modern, robust, and secure banking System.

Requirements:

• 5+ years of experience in developing and delivering robust enterprise products / applications, using Microsoft tech stack including C#, MVC, WEB API, .NET CORE (preferably .NET 5+).

• Strong knowledge of MS SQL Server. • Knowledge of Entity Framework or similar ORM Tools.

• Experience with Message communication platforms, such as RabbitMQ /

• Azure ServiceBus and experience in AzureDevOps/AWS and CI/CD automation with: Cloud native development. • Strong skills in AWS Native would be a substantial advantage.

• Understanding on Container based development (docker) and Kubernetes (OpenShift).

• Knowledge of ELK stack and understanding of SOLID design principles.

• Bachelor's degree (or higher) in Engineering, Computer Science or related field.

• Upper-Intermediate English both in speaking and writing.

Years of experience: 5+

Preferred start date/end date:

- ASAP until the end of the year.

Company offers:

• An inspiring environment in a large IT organization

• Work in an international team, which concentrates on innovative business-facing solutions

• An extensive training program to ensure that your skills are maintained and updated on an ongoing basis
