## Description:

We are a part of an organization, which delivers world-class digital financial solutions to customers. We have an understanding that the current change is Technology-driven, and we prioritize IT as a key component for success in our journey to drive digital disruption in the bank. Our teams work with complex tech challenges and develop Danske Bank's global competitive edge on innovative digital solutions. Teams are driven by job content, share ownership of strategic services, own service strategy, and lead improvement. One more important feature – senior leadership is present on site.

We are looking for a Front-End Developer for a project in the Anti Money Laundering program.

You will become a part of the team in the Anti Money Laundering (AML) development program that has several initiatives in Danske Bank group. The overall purpose of the initiative is to strengthen AML efforts in the bank. The current project is seeking a contractor to speed up the deliveries for developed solutions in various business segments. You will report and adhere to tasks of dedicated the project manager

### Responsibilities:

- Contractors will be part of the Requirements management Squad in Vilnius, Lithuania.
- Participate in Scrum Ceremonies, daily development tasks, and progress of the area as a whole in order for the Squad to succeed this year in delivering IT solutions to the AML program

**Requirements:**

- Front-end developer with mid-level experience as a minimum of 2 years of experience and proven track record
- Experience in working in Agile setup with participation in Sprints and reporting to Scrum master
- Experience in solution architecture, design, application development, and systems integration
- Minimum of one-year of Angular
- Minimum of two years of JavaScript
- Experience in the financial industry and/or banking work is an advantage
- Good communication skills in English

**We Offer:**

- An inspiring environment in a large IT organization
- A perfect opportunity to join a growing IT team and face the challenge and the opportunity to influence and shape the team in Vilnius
- Work in an international team, which concentrates on innovative business facing solutions
- An extensive training program to ensure that your skills are maintained and updated on an ongoing basis
- Highly skilled team and career opportunities
- Cross business career opportunities in bank
