Description

Open position for **PHP Developer** with proven experience at **Present Connection** company.

About the Company:

Present Connection is a company providing professional nearshoring software development services for customers all around Europe. The company operates two offices, in Delft, The Netherlands, and in Kaunas, Lithuania.

The key success of this company is the team of talented professionals who are specializing in different technologies. Also, the team is known for an informal and friendly atmosphere. It's the way people feel about the work they do, the values they believe in.

The microclimate and work-life balance it's what people in this company are truly proud of. Here all know that when a company's goals are aligned with employee's goals, great things happen. And you can be a part of it!

What You Will Do:

Have You always wanted to work with a professional and international Team in a friendly environment? We have a spot available for You!

JetCamp – the fastest growing online marketplace for searching and booking camping. Working on becoming the next booking.com for campsites. The website lists

all 25.000 campings in Europe and has affiliate contracts with all major camping-operators.

From the very beginning, JetCamp has strived to become the leading online marketplace for searching and booking a camping holiday. JetCamp now lists all camps in Europe (with content and in 6 languages) and does this free of charge.

As a Team Member, You will have a possibility to bring the team to the next level with this ambitious plan. You will work for hand in hand with professional colleagues, that are always ready to help, so this requires Your team player attitude and the willingness to share your knowledge and best practices with the team.

As a Senior Developer, your main focus is working hand-on at our backend REST API's. This can be about consuming API's of third-parties, exposing data to our own website, setting up a new data model, creating a new MyAccount environment, fixing bugs, etc. There will be a wide variety of activities and you will get the freedom and responsibility to realize the projects together with Your Team.

What We Expect:

- Knowledge and practical experience (3+ years) in PHP and in MySQL;
- Understanding of OOP principles.
- Knowledge of Laravel Framework or any other modern PHP framework
- Experienced in JavaScript and at least one popular framework, preferably vue.js
- Good HTML, CSS (Sass) knowledge
- Ability to learn new software and technologies quickly
- Good English skills

Company Offers:

Awesome job; opportunity to gain knowledge in an experienced international company and with already high-performing experienced development teams.

Awesome place to work; while in quarantine and after – anytime ‘virtual kitchen’ chats, virtual “Kitokie Pasikalbėjimai” calls with all colleagues on Fridays, an internal mentoring system, personal training budgets, discounts in shops, and more.

A healthy place to work; while in quarantine – fruit baskets and healthy snacks to take home.

After quarantine; table tennis tournaments, sport and

other activities challenges, healthy snacks, and joint Friday lunches at the office.
