Ivalua Implementation consultant

HITCONTRACT

hitcontract.lt

Vilnius, Lithuania

Description:

On behalf of our client Danske bank, we are looking for an Ivalua Implementation consultant in Digital and Tactical Delivery Department in Procurement.

About the project:

Danske Bank's mission is directly linked to the optimization and digitalization of Danske Bank's procurement and invoicing procedures. Optimization is needed to ensure Danske Bank delivers on its financial potential, benefiting customers, colleagues, society, and investors.

They have a substantial backlog of initiatives, delivering on their objectives to provide fast & transparent processes for their suppliers and employees alike while ensuring that regulations and internal processes are followed. Implementation of the Ivalua project has already released the first set of functionalities and now is looking for consultants to complete new development/enhancement items from product backlog: Procurement, Invoicing & Payment.

Role Responsibilities:

- The contractor will be part of the Digital and Tactical Delivery Department in Procurement
- Identify stakeholders and coordinate workshops and Organizational Implementation
- Closely collaborate with business users, IT architects, and different teams inside the bank
- Challenge the way they do things

- Translate to-be processes and workflows into user stories/ requirements for 'build' teams
- Design effective TO-BE processes and workflows that match business and regulatory requirements
- Help to specify business requirements – end-2-end
- Work with Ivalua, Dynamics AX, JIRA

Requirements (skills):

- Solid experience with Ivalua best practices and effective procurement processes (configuration, integrations and data architecture)
- Solid understanding of procurement processes in large companies (how to handle Commercials, Risks and sustainability)
- Understands how to plan and execute roll-out of new processes and workflows to end-users
- Knows how to work in agile teams (sprint-based, outcome focused)

Company offers:

- An inspiring environment in a large IT organization
- Work in an international team, which concentrates on innovative business facing solutions
- An extensive training program to ensure that your skills are maintained and updated on an ongoing basis

Required Skills

TOOLS

Jira 3-4 years

TECHNOLOGY

Dynamics AX 3-4 years
