Description

Behalf our client, we are looking for an **RPA Developer with UiPath** working experience.

A full-time position, preferably in Kaunas, Lithuania, but it is also possible to work from an office in Vilnius, Lithuania (+ hybrid working mode).

More details about ongoing projects(s) will be provided during the interview.

Responsibilities:

- Analyze and understand business side of processes automation
- Collaborate and communicate with both IT and non-IT representatives
- Design, develop, and test automation workflows using robotics technologies such as UiPath and Blue Prism.
- Work with Business Analysts, Scrum Masters, QA Analysts and other cross-functional resources to define and deliver business-impacting projects
- Create and document test procedures and scenarios for the pre-UAT phases.
- Create process and end-user documentation
- Support the Operational Teams during the UAT and rollout phases

- Maintain and upgrade developed solutions

Required:

- 2+ years experience in RPA tools and cognitive platforms such as UiPath, Blue Prism, Automation Anywhere, etc.
- Experience in any of the programming languages like C/C++, Python, VB Script, Ruby, Java, JS, .Net
- Proficient communication in English

Required Skills

IMPLEMENTATION

Automation 2-3 years Web Development/programming 1-2 years
