## Aprašymas

We create powerful, beautiful, and intuitive digital products. We don't blindly follow trends. We take our understanding of the latest technologies and build the best solutions for our enterprise clients. We are believers in collaboration across engineering, UX, and product teams. We combine our expertise to solve complex challenges. We are seeking a skilled Senior Software Engineer to join our team.

### Main responsibilities:

- Develop and deliver software solutions for the clients;
- Collaborate with team members on project priorities, deadlines and deliverables;
- Participating in agile ceremonies such as sprint planning, stand-up meetings, and retrospectives;
- Evaluate tools, frameworks, platforms, and processes to determine the best fit for new projects;
- Share knowledge and know-how of software best practices inside and outside the team;
- Stay on top with the latest technologies;
- Work as part of a team, as well as independently work toward assigned goals;
- Mentor less experienced team members;
- Align with project stakeholders on priorities and deliverables;

- Be the point of contact for incoming requests.

**Requirements:**

- Extensive experience in the software development field;
- Experience building backend services;
- High personal code/development standards and practices (peer testing, unit testing, code reviews);
- Experience with at least one of the frontend frameworks • Experience in cloud environments;
- Knowledge of databases;
- Experience in Agile development environment, willingness to take scrum master role;
- Fluent communication in English.

**Benefits:**

- Opportunity to be part of a global organization;
- Encouraging working atmosphere, engaging activities, and extra benefits (e.g. additional medical insurance (covers gym subscription), team events, outreach activities, and others);
- Hybrid work model with remote work opportunities;
- Open, modern, and ergonomic work environment when working from the office with the multicultural community;
- Opportunity to grow professionally and personally (e.g. Udemy) and continuously develop within the domain.

The salary range for this position is from 4125 EUR - 6875 EUR gross before taxes.

The salary offer for the candidate is determined based on the predefined salary ranges for the position and depends on the level of competence and experience of the candidate.
