Personal Statement

A goal oriented Front-End Developer eager to grow and learn new things.

I am a passionate developer who gets stuff done due to my strong work ethic. Being used to working in a fast paced startup environment I am comfortable working autonomously and enjoy taking on challenging tasks.

My experience includes:

- Writing code for parsing thousands of real time events from 3rd party APIs
- Maintaining SPA with large code bases
- Creating data visualization applications with custom animations
- Optimizing code for performance
- Developing and maintaining SPA for custom hardware

Skill Stack

PROGRAMMING

JavaScript 4-5 years
